

A) A dream house**I. Read the description and draw the dream house in the space below.**

My ideal house is at the beach. This is a three-story house with windows instead of walls. On one side there is a small pool and all around there are trees and bushes. There is parking space for two cars next to the pool. There are three bedrooms in this house. The first is on the top floor with its private bathroom that includes a dressing room. The top room has a balcony with views of the ocean. The other two rooms are on the middle floor. There is a bathroom between them. Next to these rooms there is a small study with a desk and a computer. On the first floor there is a kitchen with a stove, a big fridge and washing machine. I have a painting in the living room that is next to the kitchen. On the other side of the living room there is a dining room with space for six people. I hope I can study architecture and can design it one day.
